TinkerHub SBCE, Sree Buddha College of Engineering

- Contributed to technical projects and collaborative coding initiatives within the TinkerHub community

PROJECTS

Dark Netra – Malicious URL Detection Web App | *Python, Machine Learning, REST APIs, React*

- Classifies URLs as malicious or safe using a trained ML model, backed by third-party security APIs
- Provides detailed threat descriptions, making security insights accessible to non-technical users

CryptoChat – Secure Real-Time Messaging App | *React, Node.js, WebSockets, Encryption*

- Real-time messaging app with end-to-end encryption and user authentication
- Minimal, distraction-free UI focused on privacy and secure data transmission

Kia Seltos 3D Interactive Website | *JavaScript, HTML, CSS, Frame Animation*

- Immersive 3D product showcase using scroll-triggered frame animation to simulate a 360° view
- Optimized frame sequences for smooth, high-performance rendering across devices

ChadGPT – Malayalam AI Chatbot | *React, Generative AI*

- Experimental AI chatbot that converses in Malayalam, exploring regional language support in GenAI

The Purple Movement, Beyond Syllabus & TinkerHub SBCE Websites | *Figma, UX Research*

- Designed UI for multiple community and open-source platforms, focusing on user-centered design

CERTIFICATIONS & ACHIEVEMENTS

The Joy of Computing with Python – NPTEL Certification
